OBJECTIVES OF THE MEETING

Group B Streptococcus is estimated to colonize 10% to 20% of pregnant women. Infection with GBS is considered an important public health issue, since it is associated with neonatal sepsis, death, chorioamnionitis, perinatal infection and preterm labour. The majority of infections are associated with intrapartum transmission of the microorganisms and therefore since a few years, several societies following the CDC recommendations have applied the strategy of GBS universal screening of pregnant women in the last month of pregnancy associated with the use of prophylactic antibiotics during labour. Although this strategy has led to a significant reduction in early onset neonatal GBS disease, there is, as a counterpart, an abuse of antibiotics during intrapartum, an increase risk of antimicrobial resistance and an increased number of unwanted side effects of antibiotics. Moreover, different sampling techniques and different culture methods for the GBS carriage in pregnant women may bring to an increase in the number of false positive and false negative results, taking also into consideration that the microbiological test performed far from labour does not accurately predict the GBS colonization of the genital tract, because GBS may be transient or intermittent and re-colonization can occur after the time of screening. Moreover, almost three quarters of full term infants with early onset disease is born to mothers screened antenatally and found culture-negative. Furthermore, some important societies like RCOG have recently published new guidelines which do not support anymore the prepartum screening. Therefore, actually there is a need to reach a consensus to try to overcome all these limitations and to homogenize the current practices and strategies in the European countries, in order to detect quickly and accurately the real GBS status at the time of labour, giving antibiotics only to whom really is worth.
Consensus Conference on
“Strategies for GBS screening, prevention and treatment in the perinatal period”
Florence, Italy, June 6-8, 2013

PROGRAM

Thursday, June 6
Arrival of participants

20.30 Welcome dinner at Hotel Tornabuoni Beacci

Friday, June 7
9.00 Opening

9.20 - 11.00 Presentation of results 1

Chairpersons: G.C. Di Renzo - Italy, M. Hod - Israel

Speakers:
C. Poyart - France
S. Hakansson - Sweden
P. Melin - Belgium
R. Hughes - UK
M. Wielgos - Poland

11.00 - 11.30 Coffee Break

11.30 - 12.50 Presentation of results 2

Chairpersons: M. Wielgos - Poland, GP. Donzelli - Italy

Speakers:
B. Stray-Pedersen - Norway
G.C. Di Renzo - Italy
E. Shinwell - Israel
X. Carbonell-Estrany - Spain

12.50 - 14.00 Lunch
14.00 - 17.00  Study Groups as follows:

**Group 1: Old and new tools to detect GBS: pros and cons, drawbacks, economics, etc**

Participants:
- N. El Helali - France
- C. Poyart - France
- P. Melin - France
- R. Hughes - UK

Secretary: T. Kanninen - Italy

**Group 2: Screening and intrapartum prophylaxis**

Participants:
- G.C. Di Renzo - Italy
- B. Stray-Pedersen - Sweden
- S. Hakansson - Sweden
- M. Wielgos - Poland
- M. Hod - Israel

Secretary: I. Giardina - Italy

**Group 3: Outcome measure and neonatal disease**

Participants:
- GP. Donzelli - Italy
- X. Carbonell-Estrany - Spain
- M. Blennow - Sweden
- A. Berardi - Italy

Secretary: C. Amador - Italy

19.30  Visit to Galileo’s house at Arcetri

20.30  *Dinner at Trattoria da Omero*
Saturday, June 8

8.30  Presentation of the Study Groups Statements and Recommendations

**Group 1:** presenter: P. Melin - Belgium

**Group 2:** presenter: G.C. Di Renzo - Italy

**Group 3:** presenter: A. Berardi - Italy

9.20  General discussion

11.00  **Coffee Break**

11.30 -12.30  Sum up, future perspectives, publication policies

12.30 -14.00  **Light Lunch**

End of the meeting
Consensus Conference on “Strategies for GBS screening, prevention and treatment in the perinatal period”
Florence, Italy, June 6-8, 2013

ATTENDEES

Chairperson: Prof. Gian Carlo Di Renzo - Italy
direnzo@unipg.it

Panel of experts:
Alberto Berardi - Modena, Italy
berardi.alberto@policlinico.mo.it
Xavier Carbonell - Estrany - Barcelona, Spain
xcarbo@clinic.ub.es
Gianpaolo Donzelli - Firenze, Italy
donzelli@unifi.it
Najoua El Helali - Paris, France
nelhelali@hpsj.fr
Stellan Hakansson - Umea, Sweden
Stellan.hakansson@vli.se; stellan.hakansson@gmail.com

Rhona Hughes - Glasgow, UK
rhonahughes@googlemail.com

Mark Kurtser, Moscow, Russia
m.kurtser@mospmc.ru

Pierrette Melin - Liège, Belgium
Pierrette.melin@chu.ulg.ac.be

Claire Poyart - Paris, France
Claire.poyart@cch.aphp.fr

Eric Shinwell - Tel Aviv, Israel
Eric_S@clalit.org.il

Babill Stray-Pedersen - Oslo, Norway
Babill.stray-pedersen@medisin.uio.no

Miroslaw Wielgos - Warsaw, Poland
Miroslaw.wielgos@wum.edu.pl

Moshe Hod - Tel Aviv, Israel
Representative of the European Association of Perinatal Medicine (EAPM)
hodroyal@inter.net.il

Mats Blennow - Stockholm, Sweden
Representatives of the European Society of Pediatric Research (ESPR) and the European Society of Neonatology (ESN)
Mats.Blennow@ki.se

Secretaries:
C. Amador, Firenze, Italy
caromila2@hotmail.it
I. Giardina, Perugia, Italy
irenegiardina@hotmail.com
T. Kanninen, Perugia, Italy
ttkanninen@gmail.com
Consensus Conference on
“Strategies for GBS screening, prevention and treatment in the perinatal period”

Florence, Italy, June 6-8, 2013

ADDRESS BOOK

Istituto degli Innocenti - PREIS School
Piazza SS. Annunziata 4

Hotel Tornabuoni Beacci
Via dè Tornabuoni 3r (tel. +39 055.212645)

Villa il Gioiello (Villa Il Gioiello the house where Galileo died)
Pian dei Giullari 42, Arcetri Firenze

Restaurant “Trattoria da Omero”
Via Pian dei Giullari, 47, Arcetri
